**get smart!**  
**get funky!**

The Learning Community's annual Get Smart! event welcomes 300 political, business and community leaders from around the state for a fun night filled with great entertainment, food and drink.

**This year we're honoring and thanking Mayor James A. Diossa for all he has done for our students, our families and our hometown.**

All monies raised support The Learning Community's efforts to prove that all students, regardless of their zip code, can thrive in and out of the classroom, while providing ideal visibility opportunities for those who share in our belief that all students deserve the best education possible.
